WHERE THE WILD WAVES WHISTLE.

Funny expression; waves moan more than they whistle but at Haleiwa everything is different. You secure better service than in town and you sleep in a comfortable room. The cuisine, the climate, the verandas and everything connected with the hotel, including the service, is the best in the islands. Manager Bidgood has a standard of excellence which every employee of the hotel must not get under. It is worth a visit to see how like a clock it works.

## TO KEEP WARSHIP ON THIS STATION

OUTPOST DUTY WILL GIVE HONOLULU NAVAL VESSEL FOR SEVERAL MONTHS—MILWAUKEE DUBBED THE CYPHER SCOUT—HAS BEEN PUTTING WIRELESS SECRETS ABOARD FLEET VIA MINNESOTA—MAY GO TO AMAPA DIRECT.

Honolulu will not be long without a been her business to put official cypher messages aboard the Minnesota for transfer to the fleet as long as possible. Her usefulness in this respect ended, she is ordered to Honduras to protect American interests and put a stop to squabbling or take a hand in worse. The Washington or the Tennessee, or both, may be ordered here next, on this station, for outpost duty, just as the Alabama and Maine are at Manila for outpost duty. It has been said that the Milwaukee will go first to Panama, but this is at present uncertain, for she may go direct to Amapa, a voyage of about 4000 miles and twelve days. The Milwaukee has become known here as the cypher scout, for it has

## WEEKLY WEATHER BULLETIN

FOR THE WEEK ENDED JULY 4, 1908. GENERAL SUMMARY.

Honolulu, July 6, 1908.

The mean temperatures reported were higher than those of the previous week 0.4 deg. to 1.2 deg. on Hawaii, excepting in the southern portion of the Kau district; 0.2 deg. to 1.7 deg. higher on Oahu; 0.2 deg. to 3.3 deg. higher on Maui, and 1.3 deg. higher on Molokai, and 0.1 deg. lower on Kauai.

The rainfall for the week was below the average of ten or more years at all stations having such records in the section from which reports were received. The deficiencies, in inches, on Hawaii ranged from 0.21 to 0.81, 0.12 to 0.36 on Oahu, and 0.11 on Kauai.

All stations report less rainfall than during the previous week, excepting no change at Pahala, Hawaii, and Kihei, Maui. The greatest deficiencies occurred in the Hilo and Puna districts of Hawaii, and varied from 1.13 to 1.37 inches, and 1.32 inches in the Hana district of Maui. The deficiencies in the remaining districts were: Hawaii—Kau and Hamakua 0.00 to 0.28 inch, excepting 0.80 inch in the southwestern part of the Hilo district; Maui—Kula and Lahaina 0.00 to 0.12 inch; Oahu—0.06 to 0.53 inch; Kauai—0.02 to 0.63, and Molokai 0.27.

The greatest amounts of rainfall reported were from the Hilo district of Hawaii, and ranged from 1.17 to 1.70 inches. The greatest amount reported from the remainder of the stations was 0.53 inch.

No rainfall occurred at two stations in the Kau district of Hawaii; at two on the leeward side of Maui; at two in the Koolau district of Oahu and a trace in the Ewa district, and at two in the Kona district of Kauai.

Due to an alteration in mail schedule reports from 36 stations are missing.

The weekly average of temperature and rainfall for Oahu was:

	Temperature.	Rainfall.
Oahu.....	77.1 deg.	0.02 inch.

At the local office of the U. S. Weather Bureau in Honolulu partly cloudy weather generally obtained, with .07 inch of rainfall on the 4th, 0.22 below the weekly normal, and .25 less than during the preceding week. The maximum temperature was 82 deg., minimum 72 deg. and mean 76.3 deg., 1.6 deg. lower than the normal and 1.0 deg. higher than last week's. The mean daily relative humidity varied from 61 per cent to 72 per cent, and was 65.3 per cent. for the week. Northeast winds obtained, with an average hourly velocity of 7.7 miles. The mean daily barometer ranged from .06 to .09 inch above the normal, and the mean for the week, 30.08 inches, was .07 inch above the normal.

## KEPOIKAI'S GRAFT LIKE BORROW

(Continued from Page One.)

must rest on the circuit judges for the conscientious administration of estates. In the present case as soon as a contest arose the circuit judge seems to have done what was possible to straighten out the state of affairs then existing, but it seems probable that if the matter had remained uncontested the little heritage of these infant Hawaiians would have been wasted under the guise of legal proceedings.

The case in point was one in which a lawyer, in collusion with the administrator of an estate, piled up the legal expenses as high as possible. It so scathing a rebuke is given to an administrator and his attorney, it remains to be seen what will be done. If a circuit judge uses his official position to borrow money, which it happens at the time is badly needed for the little children of the deceased, who are dependent upon the charity of others in Japan, while their money is being used for private gain by the one who should watch their interests.

## BALL SCHEDULE

A special meeting of the Honolulu Baseball League was held this noon in the office of the secretary, those present being Messrs. Gleason, Soper, Fernandez, Falk, Steere and Thompson. The only business transacted was the arranging of the following schedule of games.

Aug. 1—Keio vs. Kams; Santa Clara vs. Punahou.  
Aug. 2—Keio vs. St. Louis; Diamond Head vs. Santa Clara.  
Aug. 8—Diamond Head vs. Keio; St. Louis vs. Santa Clara.  
Aug. 9—Santa Clara vs. Keio; All Hawaii vs. Diamond Head.  
Aug. 15—St. Louis vs. Punahou; All Hawaii vs. Santa Clara.

Pat—"O! saw in th' pa-per somethin' about a jelly that wor' after bel' blame. Phwat's th' meanin' of blame, O! dunno?"

Mike—"Blame do be th' feelin' that comest 'a man after he gets so lazy that loafin' is hard wor-ruk, O!m thinkin'."

## A FAVORED FOWL.

"I has been told," said Miss Miami Brown, "dat de parrot is one of de longest lived birds dat is."

"De statement," replied Mr. Erasmus Pinkley, "is strictly ornithological."

"I wonder why?"

"I 'spects dat one reason why de parrot lives so long is dat he ain't good to eat."

Charles Wilder went out in one of the Young launches to start the yachts. He took passage in the S. S. Mauna Kea at noon to be in Hilo when the flyers arrive. People aboard the Mauna Kea soon after sailing obtained a splendid view of the race.

Young Brothers' launch towed the Lady Maud through the channel.

## A BOOM FOR PINES

EDWARD POLLITZ AND OTHERS IN SAN FRANCISCO ARE PUSHING NEW ENTERPRISE.

The pineapple lands at Wahiawa which the Waterhouse Trust Company have been quietly absorbing for some time, are about ready to be placed on the market for sale and lease, and within a week something should be doing in the real estate market. The lands that the Trust Company have gained control of are the best in the pineapple belt, and within two years should be yielding a good crop of the delicious fruit. Plans for incorporating a company to can the fruits are going on quietly, and it is very likely that within a few months work on the buildings will be commenced.

It is understood on good authority that Edward Pollitz and some of his business associates in San Francisco are heavily interested in the new company, and as soon as the company is formed the stock will be placed on the San Francisco stock exchange for sale. Some of the people who are interested here are unwilling to say very much about their prospects, but they have said that in time that they hoped to get more land and in that way build up a large and profitable business.

## A REAL ARTIST.

Oscar Hammerstein at a dinner in New York, said that he imputed his great success to the fact that in his opera house he put art ahead of money making.

"I like to think," said Mr. Hammerstein, "that in some small degree I share the artistic feeling of the great Handel."

"Handel, when the curtain would rise upon a nearly empty house, would say soothingly to his associates: 'Ach, never mind; the music will sound all the better.'"
